

Aquatic Education Program

This aquatic education branch of the Fisheries and Wildlife Division focuses on educational and recreational programs. City residents and visitors can participate in several programs and activities. Featured programs include an annual summer program, which provide aquatic resources educational activities and fishing clinics, an in-school program and a resource center program. The center features live exhibits of various local fish and other aquatic species. Groups are encouraged to schedule visits, but walk-in visitors are welcome.

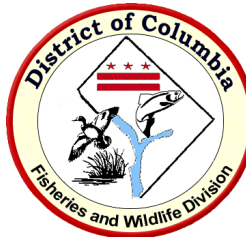

Your purchase of fishing equipment and motor boat fuels supports Sport Fish Restoration.

Teacher Workshops 2001

New Workshops

Come join us this year for another exciting workshop series. This year we are offering three different workshops that can be used to meet up to 9 seat hours. All workshops are conducted by Fisheries and Wildlife division staff at our Aquatic Resources Education Center (AREC) in Anacostia park. This years workshops include: Learning to Fish, Aquariums in the Classroom, and The Chesapeake Bay.

There is a \$15.00 fee for each workshop. Space is limited, please register no later than April 15th, 2001. Meals will not be provided at the workshops, although a lunch hour will be scheduled for workshops that exceed three hours.

Course Descriptions:

Learning to Fish

FEE: \$15.00 (No seat hours)

Fishing is an enjoyable sport that can be used to help youngsters develop an interest in aquatic environments. Learn the things you need know for a successful fishing trip. This session will provide you with actual fishing experience as we explore techniques and methods for fishing.

Aquariums in the Classroom

FEE: \$15.00 (6 seat hours)

Learn how to set up and maintain an aquarium in your classroom. This session will focus on freshwater aquariums and will address such topics as: setting up your tank, choosing the proper equipment, disease recognition and treatment, aquarium maintenance and incorporating an aquarium into an educational curriculum.

The Chesapeake Bay

FEE: \$15.00 (3 seat hours)

How much do you know about the largest estuary in the United States? The body of water that the Algonquin Indians named "Chesepiok" for "great shellfish bay" we call the Chesapeake. In this session we will discuss the history, biology and importance of the Chesapeake Bay. Additionally current issues such as the blue crab and water quality will be addressed.

Registration Form

Register by April 15, 2001

Sign up for:	Date	Time
